	Programme Data and
Programme number	0	1
Programme name	InnerClean	Eco *
Cleaning temperature	-	50 ºC
Degree of Soiling	This programme is recommended to be operated on every 1-2 months for machine cleaning and necessary hygiene. The programme should be operated while the machine is empty. In order to achieve an efficient result use together with special machine cleaning agents	Suitable for washing dishes with normal amount of soil. It is the most efficient program in terms of combined power and water consumption. This is used for assessing the compliance with EU's eco-design directive.
	-	Medium
Prewash	-	+
Wash	-	+
Dry	-	+
Duration (min)	75	210
Water (l)	15,2	11,9
Energy (kWh)	0,7	0,755

Loading Capacity: 10

Average Consumption Values Table

	2	3	4	5
	Intensive	Clean&Shine	Quick & Clean (#)	Mini (#)
	70 ºC	65 ºC	70 ºC	35 ºC
	Suitable for heavily soiled dishes, pots and pans.	Daily washing programme for normally soiled dishes.	Daily washing programme at which the medium soiled dishes that are kept waiting are cleaned in the fastest way.	Suitable for lightly soiled daily dishes that are scraped or pre-cleaned.
	High	Medium	Medium	Low
	+	+	-	-
	+	+	+	+
	+	+	+	-
	115	120	85	30
	14,8	15,0	10,6	10,4
	1,28	1,18	1,1	0,77

The consumption values shown in the table were determined under standard conditions. Differences may therefore occur under practical conditions. * Reference programme for testing institutes. The tests in accordance with EN 50242/60436 must be carried out with a full water softener salt dispenser and a full rinse aid reservoir, and using the test programme. The values given for programmes other than Eco 50°C programme are indicative only. (#) Additional functions might cause changes in programme durations

Keys

On / Off key
It is used to turn on or off the machine. Press On / Off Key to switch ON. Machine will turn on with economy programme in On mode and the number of the economy programme will appear on the programme indicator. In Off position, indicators on the display will turn off.

Start / Pause / Cancel key
It is used to start, pause or cancel a selected programme or function.

Programme Selection keys
They are used to select the washing programme you determined from the table of "Programme data and average consumption values".

Delayed Start key
It should be pressed to make the time delay settings.

Preparing the machine
1. Open the door of the dishwasher.
2. Place the dishes in accordance with the instructions in the user manual.
3. Make sure that the upper and lower impellers rotate freely.
4. Put adequate amount of detergent into the detergent dispenser.
5. Check if the Salt and Rinse Aid indicators light and add salt and/or rinse aid if needed.
6. Close the door of the dishwasher.

Programme selection
1. Press the On/Off button to turn on your machine.
2. Refer to the table of "Programme data and average consumption values" to determine a washing programme suitable for your dishes.

3. Press Programme Selection keys until the number of the programme you selected appears on the Programme indicator. Use P+ to switch to the next programme, and P- to switch to the previous one.

Auxiliary functions
Washing programmes of your dishwasher are designed to obtain the best cleaning effect, considering the type of the soil, soiling degree and properties of the dishes to be washed.

Auxiliary functions are provided in order to enable you to save time, water and energy and to perform a more comfortable washing with conditions specific to you.

ⓘ Auxiliary functions may cause changes in the programme duration.

ⓘ Some auxiliary functions cannot be used together.

ⓘ Auxiliary functions are not suitable for all washing programmes. Indicator of the auxiliary function that is not compatible with the programme will not be active.

To add auxiliary function to the programme:
1. Select the desired washing programme by pressing the programme selection key.
2. In the selected washing programme, if auxiliary function is selected, its symbol will be displayed on the screen. If the function button is pressed again the symbol will disappear and selection is cancelled.
3. Selection will be cancelled when you press the function key again.

Tablet detergent function

(depends on model)

Allows to obtain a better drying performance from the multi-purpose detergents called as all in one detergents such as 2in1, 3in1, 4in1, 5in1 and etc., depending on the hardness level of the tap water.

Press and hold the tablet function buttons on the panel to activate the tablet function for appropriate programmes. Selecting the tablet function will light the Tablet Detergent indicator.

i If you have used the Tablet features during the last washing programme you used, Tablet function will remain active in the next washing programme you will select. If you do not want to use these functions in the new program you have selected, press the Tablet Detergent key until the indicator of the relevant function turns off.

i Tablet Detergent function may cause change in the programme duration.

Half Load function

(Depends on model)

It is used to operate the machine without loading it completely.

1. Load your dishes in the machine as you like.

2. Turn the machine on with On/Off key.

3. Select the desired programme and press the Half Load key.

While the function is enabled, the Half Load indicator will come on in the function selection indicator and on the display.

i With the Half Load function you can save both water and power while using the lower and upper baskets of the machine.

SteamGloss Function

(Depends on model)

It provides superior drying performance.

Iluminación del suelo
Advertencia para mostrar que el aparato está en fase de lavado

(según el modelo)

El aparato refleja una luz en el suelo durante el proceso de lavado. Esta luz se apaga después de que el proceso de lavado se haya completado.

i La iluminación del suelo se activa automáticamente cuando el programa de lavado se inicia y se mantiene encendida hasta la finalización del programa.
i El usuario no puede cancelar la iluminación del suelo.

Quick Guide
Adjusting the water softening system

Washing, rinsing and drying performance of your dishwasher will improve when the water softening system is adjusted correctly.

To adjust the system, first learn the water hardness in your region and adjust as indicated below.

- Unpack the test strip.
- Open the tap and let the water flow for approx. 1 minute.
- Dip in the test strip into the water for 1 second.
- Take out the strip from the water and shake it.
- Wait for 1 minute.
- Make the necessary adjustment according to the test strip.

Level 0
Level 1
Level 2
Level 3
Level 4
Level 5

After detecting the water hardness:

1. After turning on the machine, press Delayed Start and P+/P keys simultaneously. After the countdown (3, 2, 1) is displayed keep the keys pressed for a while.

2. Press P+/P key to activate the ┌ position.

3. Using Delayed Start key, adjust water hardness level according to the hardness of the supply water. See "Water hardness level adjustment table" for correct setting.

4. Press On / Off key to save the setting.

Water hardness level adjustment table

Hardness Level	English Water Hardness °dE	German Water Hardness °dH	French* Water Hardness °dF	Water Hardness Level Indicator
Level 0	0-5	0-4	0-8	Press the Delayed Start key to switch the water hardness level to position 1. (r1)
Level 1	6-9	5-7	9-13	
Level 2	10-15	8-12	14-22	Press the Delayed Start key to switch the water hardness level to position 2. (r2)
Level 3	16-19	13-15	23-27	Press the Delayed Start key to switch the water hardness level to position 3. (r3)
Level 4	20-24	16-19	28-34	Press the Delayed Start key to switch the water hardness level to position 4. (r4)
Level 5	25-62	20-50	35-90	Press the Delayed Start key to switch the water hardness level to position 5. (r5)

- If the hardness level of the water that you use is above 50°dH or if you are using well water, than it is recommended to use filter and water purification devices.
- If the hardness level of the water that you use is below 7°dH, there is no need to use salt in your dishwasher. In this case, the Salt Indicator light on the control panel of your dishwasher will light continuously.
- If the water hardness is set to level 1, the Salt Indicator will light continuously although it is not necessary to use salt. If you use salt under this condition, salt will not be consumed and the lamp will not illuminate.

When moving, you will need to set the water hardness level of your dishwasher again according to the information above, depending on the water hardness of the place you have moved to. If the water hardness level of your machine is adjusted previously, your machine will display the most recent hardness level adjustment.
