16 Place Setting Freestanding Dishwasher with Autodosing

SelfDry - Get your dishes perfectly dry, without using up any more energy. SelfDry™ lets air in by opening its door automatically after the program is finished and circulates that around your wash, so that your dishes are clean without any water stains.

Autodosing - For hassle free cleaning with gel detergent, AutoDose technology senses the dirtiness of your dishes to automatically dispense the perfect amount of detergent and rinse aid for your load. Simply fill the detergent* reservoirs and the optimal amount will be used wash after wash, helping you to not only save water and energy, but detergent and rinse aid too.

* Gel Detergent and Rinse Aid

Wifi Connected/Download Programs - Track your detergent level and get a notification when you need to buy more. Easily control your dishwasher from your smartphone with our HomeWhiz technology. You can also download new programmes, set them as your favourite and remotely control and monitor your dishwasher, all without needing to be in the room.
