Innovation

Did you know about Beko?

Beko achieves 44th place on TIME's inaugural list of the world's most sustainable companies.

Beko established in 1955 and is one of the top ten appliance brands globally.

Corporate Knights' 2021 Global 100 Index.

The leading brand in Europe's freestanding white goods market.

Member of
Dow Jones Sustainability Indices

Powered by the S&P Global CSA

Dow Jones Sustainability Index.

Real Leaders Impact Awards.

Cooking

AEROperfect™

Perfect hot air distribution, meals cooked to perfection.

When hot air isn't evenly distributed throughout your oven, you end up with food burnt at the edges or uncooked in the middle. AeroPerfect™ technology takes its inspiration from aircraft designs, an industry which understands aerodynamics better than any other. Using this expertise, AeroPerfect™ uses a constant stream of even airflow all around the oven, all the while minimising temperature fluctuation, so your food is cooked to absolute perfection every single time. All you need is to put your food in the oven and enjoy the perfect results!

SteamAid

Fluffier & crispier baking

Home-made pastries should be better, but getting that perfectly flaky crust is a challenge. SteamAid injects steam into the oven cavity while cooking to get pastries and bread crispy on the outside and soft and fluffy on the inside. So, no more chewy bread or dried-out pastries.

Catalytic Walls

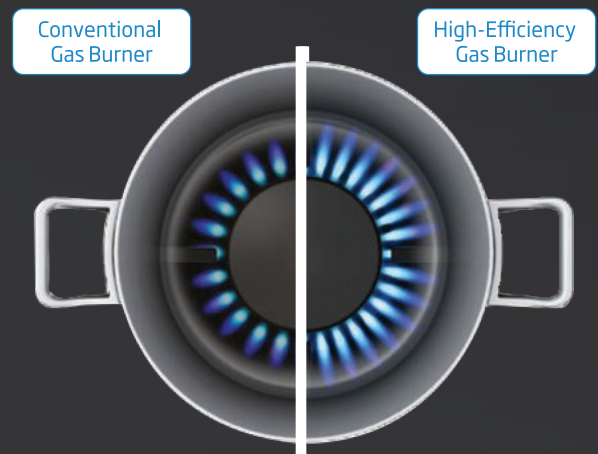

Grease-absorbing walls

Scrubbing the oven with strong cleaning products is nobody's idea of fun. Catalytic walls in your oven's back and side walls use clever science to absorb cooking grease and reduce food odours. So, you can save that elbow-grease for something a little more enjoyable.

High Efficiency Gas Burners

Faster and more efficient cooking with special burner design

Don't let a busy day cost you a healthy meal. Now you can cook every meal faster and more efficiently on the hob. High Efficiency Gas Burners use less gas and cook more quickly than standard burners. So even when you're short on time, you put your favourite meals on the table fast.

BBDF26300X

60cm Stainless Steel Multifunction Built-In Double Oven

Specifications

- Energy Rating: A
- Usable Volume: 38/75l
- Timer: Digital
- Handle: Square Inox Handle
- Inner Oven Door: Removable inner Glass

Added Features

- Simple Steam Cleaning
- Catalytic Back Wall
- Side Racks (2/5 levels)
- Accessories: 3x Wire Shelf with Standard Tray, Tray Rack

Functions

- Conventional Cooking (Top Cavity)
- Bottom Heating (Top Cavity)
- Electric Grill (Top cavity)
- Low Grill (Top Cavity)
- Fan Heating (Main cavity)
- Defrost (Main cavity)

Dimensions

- Unpacked Dimensions: 890 x 594 x 567 mm (H x W x D)
- Packed Dimensions: 955 x 660 x 660 mm (H x W x D)

BVM32400A

60cm Anthracite Multifunction Built-In Oven with Split&Cook

Specifications

- Energy Rating: A
- Usable Volume: 80L
- Timer: Digital
- Handle: Square Anthracite Inox Handle
- Inner Oven Door: Removable Inner Glass
- Telescopic rail

Added Features

- Simple Steam Cleaning

BMCB25433X

25L Built in Convection Microwave Oven

Specifications

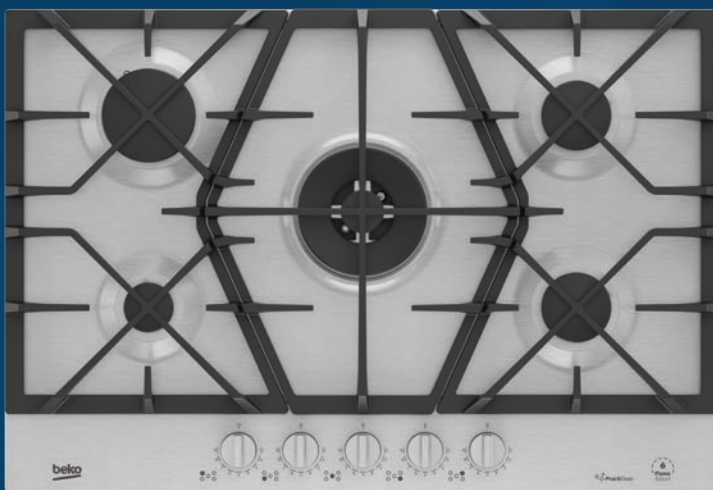

- Maximum Microwave Power 900 W (5 Levels)
- Grill Power 1100 W (4 Levels)
- Capacity 25L
- Turntable Diameter 315 mm
- Auto-Cooking (10 Functions)
- Child Lock
- Auto-Weight Defrost
- Interior Light
- Digital Timer
- Quick Start
- Side Opening - button

Dimensions

- Unpacked Dimensions:
388 x 595 x 470 mm (H x W x D)
- Packed Dimensions:
655 x 533 x 536 mm (H xW x D)

HIAW 75226 SXE

75cm Stainless Steel Hob

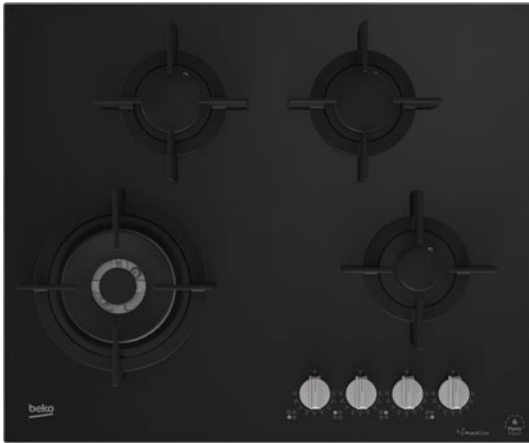

Specifications

- 5 Burner Hob
- 4kW Wok Burner
- Continuous Cast Iron Pan Support
- Intergrated Ignition
- Flame Adjust (9 Levels)
- PractiClean Surface Stainless Steel
- High Efficiency Gas Burners
- Flame Failure Safety Device

Dimensions

- Unpacked Dimensions: 51 x 646 x 524 mm (H x W x D)
- Packed Dimensions: 190 x 730 x 620 mm (H x W x D)

MACM11B

Beyond 65cm Gas on Glass Hob

Specifications

- 4 Burner Hob
- 5 kW Wok Burner
- Cast Iron Pan Supports
- Flame Adjust (9 levels)
- PractiClean
- Gas on Glass
- High Efficiency Gas Burners
- Flame Failure Safety Device
- Integrated Ignition

Dimensions

- Unpacked Dimensions:
51 x 646 x 524 mm (H x W x D)
- Packed Dimensions:
190 x 730 x 620 mm (H xW x D)

HIC64503TX

60cm Vitroc ceramic Hob with Slider Control

Specifications

- 4 Plate Vitroc ceramic Hob
- Dual Zone & Extended Zone
- Stainless Steel Trim
- Timer
- 19 Cooking Levels
- Booster Function
- Memory Function
- Residual Heat Indicators
- Display Lock
- Automatic Shut-off
- On-off Indicator light
- Overflow Safety for control unit
- Overheat Safety System

Dimensions

- Unpacked Dimensions:
37 x 582 x 512 mm (H x W x D)
- Packed Dimensions:
125 x 655 x 555 mm (H xW x D)

BHCA62422BBH

60cm Black Glass Inclined Hood

Specifications

- Wall mounted Inclined Hood
- 3 Power Settings
- Ventilation Capacity: 222-400m³/h
- Noise Level: (46-67dBA)
- Push button control
- 2x LED Lights (3W)
- 2x Charcoal Filters
- Dishwasher Safe Filters

Dimensions

- Unpacked Dimensions:
1138 x 595 x 419 mm (H x W x D)
- Packed Dimensions:
550 x 670 x 540 mm (H x W x D)

HCB63741GR

60cm Grion T-Shaped Hood

Specifications

- Wall mounted T-Shaped Hood
- 4 Power Settings
- Ventilation Capacity: 280-730m³/h
- Noise Level: (49-70dBA)
- Touch Control
- 2x LED Lights (4W)
- 2x Grease Filter
- Dishwasher Safe Filters
- Auto Shutdown
- Air Cleaning Function

Dimensions

- Unpacked Dimensions:
930 x 600 x 490 mm (H x W x D)
- Packed Dimensions:
640 x 650 x 500 mm (H x W x D)

CWB6441AN

60cm Anthracite Chimney Hood

Specifications

- Wall mounted Pyramid Hood
- 3 Power Settings
- Ventilation Capacity: 240-400m³/h
- Noise Level: (53-64dBA)
- Mechanical Push Button
- 2x LED Lights (4W)
- 3x Grease Filters
- Dishwasher Safe Filters

Dimensions

- Unpacked Dimensions:

- Packed Dimensions:
570 x 960 x 350 mm (H xW x D)

Cooling

HARVESTfresh™

Inspired by nature, powered by light

Even though they keep looking fresh, fruits and vegetables start to lose their vitamins when placed in the fridge. Thanks to innovative **HarvestFresh™** technology, vitamins are preserved for longer*. Unique crisper technology developed for Beko fridges uses not one, but 3 efficient colours, that mimic the 24 hours sun cycle and natural sunlight. All of this so you can enjoy nutritious meals and a healthier lifestyle.

*Tested by Intertek based on Vitamin C and Vitamin A measurements in tomatoes, green peppers, carrots, spinach, celery, parsley, coriander, red peppers and kale directly exposed to the light technology compared with Day 0 conditions over a 5-day period.

AEROflow™

Up to 30% longer freshness

When it comes to keeping your food fresh, crispy, and as delightful as the moment you bought it, your fridge freezer plays a starring role. This isn't new information for any of us. But, as they say, not all heroes wear capes! Some, like the Beko fridge freezers, come equipped with an innovative feature known as **AeroFlow™**. In Beko fridge freezer, this feature is a sophisticated cooling technology that ensures uniform air circulation throughout the appliance, maintaining consistent temperatures and humidity levels. This feature helps keep food fresher for longer by preventing hot spots and frost buildup.

Holiday Mode Function

Going away on holiday

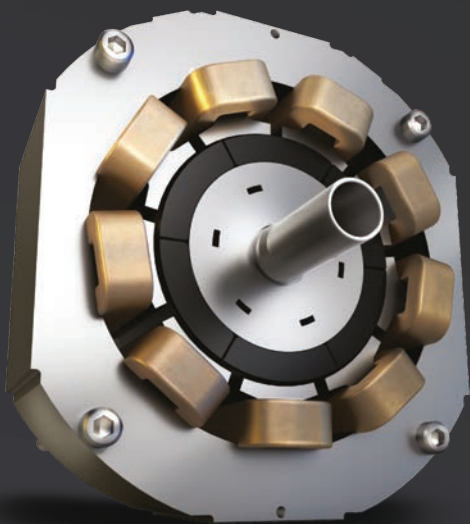

This feature reduces the amount of power the appliance uses by stopping the fridge compartment from functioning. Empty the compartment and select Holiday Mode whenever you go away. The other compartments will continue to be cooled according to their set temperatures.

ProSmart Inverter Compressor

High efficiency, high durability, low noise

What do you want for lunch? If you're one of those always in-and-out of-the-fridge types, it will help your energy bill if your fridge has a Beko ProSmart™ Inverter Compressor. That way you can open the door for a good nose inside as many times as you like and the clever ProSmart™ technology will adapt and create less temperature variations, cooling your food quickly. Cleverly saving energy and money. And all with quiet efficiency – ProSmart™ Inverter Compressor is four times quieter than the compressor in your average fridge*. Letting you eat lunch in peace.

AQUAtech™

Half the time, twice the care.

Beko **AquaTech™**, a groundbreaking washing technology, replaces drum movement with power of water. Using the strength of water in this way saves time up to 50% without sacrificing any of the washing performance. In addition, up to 50% gentler to your clothes compared to conventional fast programs. Beko **AquaTech™** premixes water and detergent and sprays the mixture directly onto fabric. This ensures proper penetration into the textiles and ensures a thorough wash. This new technology of Beko is a huge time-saver and ensures textiles are treated gently.

AquaWave® Technology

Gentle yet effective

No need to worry about your favourite shirt. With the Beko **AquaWave®** system, a specially designed drum pattern gently moves your laundry in a wave-like drum action so your clothes move smoothly around in the drum. The AquaWave® glass in the door is curved too, and specially designed paddles move the clothes more easily, giving a better mixing effect while increasing cleaning performance.

Wash&Wear®

1kg in 1 hour

Was that date really today? You've got no clean clothes, your lucky top is in the dirty basket and you've got to catch the train in an hour. Fortunately the **Wash&Wear®** program in your Beko washer dryer can get a shirt washed and dried in the machine in barely no time at all. Choose from temperature settings of cold- 20°- 30°C and get up to 1kg (5 shirts) washed and completely dried in an hour. You go in the shower, your favourite shirt goes in the wash.

IRONfinish

Ironing technology inside,
ready to wear clothes outside!

Ironing your clothes everyday can be tiring. Beko's IronFinish Dryers take care of the hassle for you, getting your clothes completely dry and ready to wear. It even works the same as a regular iron, infusing water and steam into your clothing for the ideal time at the ideal temperature, so fabrics come out smooth and ready to wear, just as if you'd ironed them! Let your dryer do your ironing for you so you can get on with the more important things in life!

We use recycled plastic bottles* in our washing machines and washer dryers

For healthy living on a healthy planet.

Dishwashers

HygieneShield

beko

B 300

Control panel with a digital display showing '10' and various touch-sensitive buttons for cycle selection and settings.

 **HygieneShield**™

Purifying power of high temperatures
for 99.999% hygiene

Killing 
99.999%
Bacteria & Viruses*

As we all get more used to eating at home all the time, you've probably noticed that the dishes begin to pile up, particularly in larger families. Our research indicates as well that people trust dishwashers more than washing by hand both to get their dishes cleaner and to take away all that hassle.

Inspired by the purifying power of hot springs, our new Hygiene Shield Line Dishwasher provides bacteria & virüs* elimination for your dishes in a safe and convenient way at home.

The steam mist rises up from these high temperatures to cover every inch of the dish. Then the dishes are rinsed with purifyingly hot water. All this means that 99.999% of bacteria and viruses* are completely eliminated for perfectly hygienic results.

* Killing; *Enterococcus faecium*, *Bovine Coronavirus*, *Murine Norovirus*

AqualIntense®

Intense cleaning performance for the dirtiest dishes

Stubborn dirt and hard-to-clean dishes? No worries, Beko **AqualIntense®** creates a powerful cleaning zone with intense water pressure and offers up to 5 times better cleaning performance, so even the toughest pots and pans get a thorough clean. No matter what you put your cookware and dishes through in the kitchen, with Beko **AqualIntense®**, they'll come out spotless every time.

*Tested by internal laboratories on an intensive 70°C program

Fast+ Function

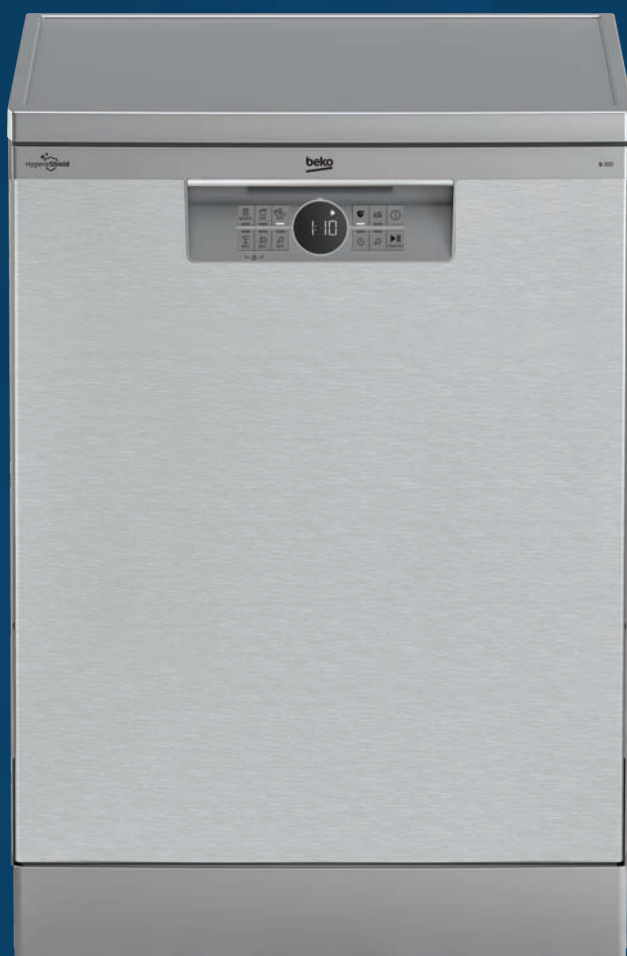

Clean dishes and glasses in a flash

Sometimes you don't have time to wait for a full wash cycle to run before you have clean plates and glasses. The Fast+ function makes the washing cycle faster up to 3 times* with optimum performance, meaning you can wash and serve in no time at all.

*Tested by internal laboratories.
