ROBO))) SMART
Robot Vacuum Cleaner

RS 6500+

*Source Euromonitor International Limited; Consumer Appliances 2025 edition, Beko Corp. Large Appliances as per "Major Appliances", GBO, retail volume, 2024 data.

Features

High Performance

Elevates the efficiency with 5000 Pa suction power and offers an uninterrupted cleaning experience with up to 250 minutes runtime and automatic charging feature.

Auto Dirt Disposal System

Provides a 4L automatic dust container and charging station with an emptying feature, delivers up to 90-day** hands free cleaning experience**.

*** Based on internal test results. It may depend on use habits and environmental factors.

Mapping with LDC Technology

Guarantees intelligent mapping by learning, mapping, and adapting to up to 5 different home layouts with LDS technology, surrounding the house with 360° scan, ideal for multi-floor homes*.

*Suction mode and wet level adjustment can be selected for each room separately.

Mopping & Vacuuming

Sweeps and mops hard floors simultaneously using the Smart Mop feature, with adjustable water drop levels as desired, all powered by a 0.3 L capacity water tank.

Self-Charging Feature

Seeks the charging dock automatically on low battery for self-charging and gets back to the spot it left to continue its cleaning.

Versatile Suction & Mopping Modes

Provides 3 modes of water dosing mop system and 4 suction modes tailored to various cleaning needs: Maximum, Standard, Quiet, and Powerful.

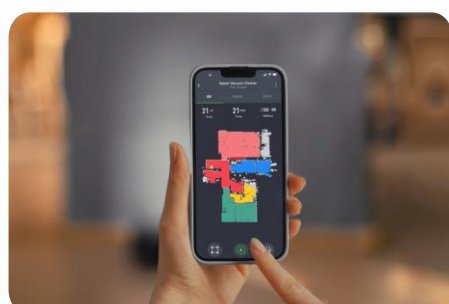

Carpet Climbing

Designed to handle various surfaces and obstacles, climbing and crossing up to 2 cm heights.

Customized Cleaning

Enables customization of maps and rooms using the app, allows users to select specific cleaning zones based on their preferences, uses Virtual Walls to confine the robot to desired cleaning areas and avoid designated rooms.

Wi-Fi Connected Mobile App 'HomeDirect'

Wi-Fi connectivity enables remote control of the robot vacuum cleaner from personal smartphones, anytime and anywhere.
